

THIRTY-SEVEN DEAD IN RAID ON LONDON

Royal Flying Corps Drives
Off Raiders and Brings
One Machine Down

INJURED NUMBER 141

British Airmen at Dunkirk
Miss Returning Raiders But
Bring Down 7 Other Planes

DEATH LIST SMALL

LONDON, July 7.—Thirty-seven persons were killed in a German air raid on London today and 141 injured. This was officially announced this afternoon. One enemy machine was brought down by the Royal Flying Corps.

An admiralty statement issued today said that British airmen at Dunkirk, watching for the returning raiders, missed them but brought down seven other enemy machines.

Succession of Duels.
Numbers of British patrols were already in the air around London when the enemy reached the city. These scouts went into action at once and a succession of duels took place. The British prevented the enemy's effort to return in a westerly direction from succeeding and forced the raiders to retire southward, fighting as they fled.

The plans of the raiders for an attack on certain objective points appeared to be upset by the activity of the British airplanes and several of the raiders in a desperate effort to lighten the load they were carrying in preparation for the retreat, were compelled to drop their cargo aimlessly.

The enemy's bomb-carrying planes were in the center of the formation surrounding and protected by fast fighting scout machines.
Despatch from Coast Town.
A despatch from a southeast coast town says:
"Eight enemy airplanes passed over here at 9:35 on route to London. It is believed here that one of the raiders was damaged by local anti-aircraft guns, because it turned back seaward. The remaining seven, proceeding inland were presumably joined later by another squadron which crossed the coast at different points."

An admirable feature of the air raid was the prompt, cool work of voluntary organizations, both men and women. Hundreds of special constables got quickly to work. The women's volunteer aid organizations immediately assembled at their various headquarters and motored to the scene where they could help the wounded.

Incendiary bombs fell on the upper floor of some large buildings crowded with men and women workers. The firemen removed a number of these on ladders.

Group of Buildings Shattered.
A group of several east end dwellings occupied by workmen's families was shattered and it is believed a number of women and children in these structures were killed and others wounded.

Many Londoners, seeking shelter from the raiders, were given refuge in the basement of the American consulate. No bombs, however, were dropped in that section of the city.

Nevertheless the whole raid was observable from this point and among those who watched its progress were former Premier Asquith and his wife, whose home is nearby, and Robert P. Skinner, the American consul general.

The women secretaries in the consulate, most of whom belong to the Red Cross societies, immediately donned their uniforms and proceeded to report for duty in another section.

Directed Against Civilians.
Today's attack was plainly directed against the civilian population and business and financial buildings. There is no question that the Germans knew where they were and it was no matter of scattering explosives blindly from a great height. Why more persons were not killed is hard to explain. Thousands were in the streets in the area bombed, but probably a much larger proportion took shelter in the solid buildings taught by the lesson of June 13.

The upper story of one building, where several hundred men and girls were employed was partly destroyed. First reports were that great loss of life had occurred in this building but it later developed no one was even injured as all the workers had been quietly marshalled into the basement when the gun fire began.

The upper part of a solid office building was crushed. Large concrete blocks were thrown about the street, but no one in this building suffered injury as refuge was early sought in the basement. Among the places attacked was one of the most extensive metropolitan hospitals, on which the Red Cross flag was flying conspicuously and the location of which must have been known. Early rumors were abroad that the hospital had been badly damaged but investigation showed it had escaped.

SEND TROOPS TO PROTECT WHITES AT HARTFORD

Band of Negroes Marching to
Attack Whites; Report

Col. Donnelly of Missouri National Guard Receives Call—Negroes are Refugees from East St. Louis—Alton Police Discourt Report.

St. Louis, Mo., July 8.—Colonel Donnelly commanding the First Regiment, Missouri National Guard, early this morning received a call to send troops from Alton to Hartford, Ill., to protect the whites there against a threatened negro attack.

A company of the First Missouri Regiment is in federal service at Alton, Ill., and for this reason the appeal for troops was made to the commandant of the Missouri guard.

Troops from Alton have been ordered to the scene. According to the reports received there the whites at Hartford and at Wood River, Ill., have barricaded themselves in their homes and are prepared to resist attack.

Sixty to one hundred negroes are reported in the advancing band. These negroes are refugees from East St. Louis, who arrived at Hartford today.

No Trouble Has Resulted.

Alton, July 8.—A white woman at Hartford, Ill., a small town a short distance south of here, became alarmed last night (Saturday) at the boisterousness of negro refugees from East St. Louis who camped today half a mile from Hartford. An appeal for protection was made to the Alton police and to the company of Missouri National Guard stationed at Alton on federal duty. Investigation developed that no trouble had resulted up to 1:30 this (Sunday) morning and that reports that the negroes were advancing on Hartford were unfounded.

White men said, however, that they were armed and were prepared to defend their families if the negroes made trouble.

A railroad operator at Hartford said that the whites would not permit the negroes to remain in the camp. It was stated that some of the negroes went to Hartford yesterday and made boasts of what they would do to the whites.

FEDERAL AUTHORITIES RELEASE VON LINDE

NEW YORK, July 7.—R. Berg VonLinde, an exporter and importer of chemicals, arrested by federal agents at a Brooklyn pier today for passing money and packages of letters to the steward of a steamship on which Heinrich Schaeffhausen, a former German embassy attaché in Washington was being sent out of the country by the United States government, was released tonight. Eric Lindstrom, the steward, who was brought ashore with VonLinde, also was released. The departure of the liner was delayed two hours while federal agents searched the steward's cabin. The seized packages contained 21 letters written in Swedish and addressed to persons in Sweden. VonLinde said he had given them to the steward to expedite delivery as letters mailed thru the usual channels took two months to reach their destination. He asserted he had lived in this country 14 years and had taken out first citizenship papers.

Melville J. France, federal district attorney for the Brooklyn district, said tonight VonLinde had been released because the authorities were convinced after an investigation that he was not a spy.

WEATHER FORECAST FOR COMING WEEK

WASHINGTON, July 7.—Weather predictions beginning Sunday, issued by the weather bureau today are:
"Great Lakes: Occasional showers probable; moderately warm first half of the week. Cooler latter half."
"Plain states and Upper and Middle Mississippi Valley: Fair except for widely scattered local thunder-showers; warm first part of the week, considerably cooler latter half."

WOMAN'S BATTALION LEAVES FOR RUSS FRONT

PETROGRAD, July 7.—Under the command of Mademoiselle Vera Butchikoff, the woman's war battalion fully armed and equipped as infantry today left for the front. Before their departure the Russian soldiers appeared in military formation before the Kazan Cathedral, where a solemn religious service was held. The American ambassador David R. Francis was among the officials present. An officer representing the commander of Petrograd military district wished the women soldiers glory in their struggle with the foes of Russian freedom. Large crowds of citizens cheered the battalion as it marched to the railway station. Committees of the league for equal rights for women bade farewell to their sisters under arms.

HAS RESIGNED POSITION

Miss Edna Colby has resigned her position in the office of Swift & Co. and will be succeeded by Miss Nellie McCarty. Miss Colby has been with the company for the past six years in stenographic and clerical work. She was one of the valued employees at the local branch and her resignation was accepted with regret.

HOLD FIFTY-TWO ON BOND

Philadelphia, July 7.—Fifty-two persons, thirteen of them women, were today held in \$1,000 bail each on charges of unlawful assemblage. They were arrested last night in a hall where speakers in a foreign language were advocating resistance to military registration.

DIPLOMATIC CORPS WARNS AUTHORITIES

TIEN TSIN, July 7.—The diplomatic corps at Peking met today according to advice received here and warned the authorities that unless the Peking-Mukden railway was kept open in accordance with the protocol of 1901, they would take immediate action to re-establish communications. It is understood that only one rail has been torn up by the royalist troops and railway operatives are now making repairs.

INDICT FORTY-ONE IN NEUTRALITY CASE

San Francisco Federal Grand Jury Returns True Bills

Indictments in So-Called Steamship Sacramento Case are in Addition to Ninety-Eight Previously Returned in the Alleged Hindu Plot

San Francisco, July 7.—Forty-one indictments were returned here today by a federal grand jury in the so-called steamship Sacramento neutrality case in addition to 98 indictments previously returned today in the alleged Hindu plot. Among those indicted in this case were F. Von Pape, former military attaché of the German embassy in Washington and a number of local shipping men.

Former German Consuls in Chicago, Honolulu, Shanghai, Manila and San Francisco, together with members of their staffs and former attaches of the German embassy at Washington are among those indicted.

Two Sets of Indictments

Two separate sets of indictments were returned—98 bearing on a world-wide plot to foment revolution in India and 41 on the so-called steamship Sacramento case in which it is charged an effort was made to provision German warships at sea. Several of the defendants are mentioned in each set of indictments.

The so-called Hindu revolution plot was summarized today in a statement by John W. Preston, U. S. District Attorney in which he says: "One hundred and five men are involved. Ninety eight have been indicted and seven named as co-conspirators. About one half of this number are at present without the jurisdiction of the United States. For more than a year prior to the outbreak of the European war, certain Hindus in San Francisco and German agents were preparing openly for war with England. At the outbreak of the war Hindu leaders, members of the German consulate here and attaches of the German government began to form plans to carry out a conspiracy to incite revolution in India for the two fold purpose of attempting to free India and aid the Germans in their military operations."

Canvassed Hindus on Coast

Hindus on the Pacific coast were canvassed and those willing to take part in the revolution were registered. Emissaries were financed by the German agents here and immediately despatched to Germany. Shortly thereafter what is known as the India committee, an adjunct of the German foreign office, was created in Berlin. Among them was Hardial, a fugitive from the United States in 1914. This India committee has the personal attention of Alfred Zimmermann.

"Thereafter the operations of the plotters in the United States were directed from Berlin and the finances were sent from the same source. The conspiracy took the form of various military enterprises. Arms and ammunition in large quantities were purchased with German money. Men were recruited and sent to India. Military expeditions were organized to be carried on from America and Siam. Arms and ammunition were smuggled thru China and Japan."

"The whole conspiracy was a well defined effort to create a revolution in India for the purpose of forcing England to maintain large bodies of troops in India that otherwise would have been for use against Germany on the battle front. The evidence presents an amazing display of intrigue at the expense of the laws and hospitality of the United States."

Alfred Zimmermann, referred to in Preston's statement, is foreign secretary of Germany. Names of those indicted in the Hindu plot case are on the secret file of the United States court.

APPROVE STATEMENT OF PARTY'S ATTITUDE

CHICAGO, Ill., July 7.—Members of the Socialist party in the United States have approved by a vote of 21,629 to 2,732 the statement of the party's attitude toward the war with Germany, submitted by the majority of the committee on war and militarism appointed by the St. Louis convention last April according to the party's executive committee, which met here today.

The Socialist party according to the referendum opposes the entrance of the United States into the war, but advocates the application of Socialist doctrine to war measures. The two principal innovations urged are the conscription of wealth as well as of men and public ownership of all national industries vital to the prosecution of the war.

READ LETTER FROM BAKER

New York, July 7.—Soldiers who interfere with free speech, free press or the right peaceably to assemble and petition the government break the law, according to a statement of Secretary of War Baker made in a letter read here by the American Legal Defense league.

SENATE ADOPTS COMPROMISE CLAUSE

Would Prohibit Making and
Importation of Distilled
Beverages During War

RE-COMMIT WAR TAX BILL

Prohibition Section Would
Eliminate Distilled Beverages
As a Revenue Source

DISLIKES SENATE BILL

WASHINGTON, July 7.—In a final vote on prohibition the senate late today substituted 45 to 37 for the "bone dry" prohibition section of the food control bill Senator Robinson's compromise as amended by Senator Smoot, prohibiting manufacture and importation of distilled beverages during the war and directing the president to take over and pay for existing stocks of distilled beverages in bond.

As this would eliminate distilled beverages as a revenue source, Chairman Simmons of the finance committee had the senate recommit the \$1,650,000,000 war tax bill so that new sources of revenue may be sought.

Leave Beer and Wine Undisturbed.

The beer and wine industries would be left undisturbed by the action of the senate in substituting its section for that of the house bill to prohibit the manufacture of foodstuffs into beverages of any description. It also added by a vote of 65 to 12, a further clause directing the president to take over all distilled spirits in government bonded warehouses and pay for it on the basis of cost plus ten per cent.

While the final prohibition legislation will be evolved in conference between the two houses, it is generally regarded as possible that the house will accept the senate's change after a fight in behalf of the original section.

The senate provision would limit consumption to stocks in retailers hands or withdrawn before the law goes into effect. Stocks of distilled beverages in bond were estimated tonight at between 200,000,000 and 300,000,000 gallons and the annual normal consumption at 120,000,000 gallons. To purchase this enormous quantity of liquor or what is left of it after withdrawals in anticipation of the legislation it is estimated that the government would have to spend from \$200,000,000 to \$1,000,000,000.

Probable Loss in Revenue.

The probable loss in federal revenues is placed at from \$200,000,000 to \$400,000,000, although this as well as the cost of purchase would depend entirely upon how much liquor is withdrawn and tax paid before the commandeering.

The senate's action promises indefinite delay in acting on the war tax bill, further delay on the food control bill and indefinite postponement on adjournment of congress.

The senate's vote to have the government virtually buy for industrial purposes and thus withdraw for consumption or revenue purposes, the great stocks of distilled liquors held in bond followed rejection of a proposal to deal with beer and wines, a proposal to authorize the president to suspend manufacture of these "light" intoxicants being defeated. It was estimated tonight that manufacturers and dealers probably could raise funds enough to withdraw at least half of the existing supply, or enough to meet consumption demands for a year or more.

One feature of the bill as it now stands—the prohibition of the manufacture of distilled spirits—will not be subject to change in conference and therefore is certain to become law.

Prohibition Advocates Elated.

Another day of impassioned speeches under a five-minute limit "inside" congressional maneuvering and parliamentary tangles preceded the senate's action. The result was hailed as a partial victory by both "wets" and "drys." Prohibition advocates were more elated however, because they had won their fight to stop, or at least greatly restrict, consumption as well as manufacture of distilled beverages.

The "wets" were successful however, in confining the senate's action to distilled beverages without interfering with beer and wines.

The contest raged about the so-called "administration compromise" of Senator Robinson, originally providing only for prohibiting manufacture of distilled beverages during the war.

The provision for government purchase of distilled beverages in bond offered by Senator Smoot, was added to the Robinson substitute by a vote of 65 to 12, after many senators had vigorously denounced as confiscation of distillers property a provision by Senator Cummins of Iowa which proposed to prohibit withdrawal of the warehouse store.

On Senator Cummins' amendment the senate reversed itself. After having

CITE ENTIRE AMBULANCE SECTION IN ORDERS

PARIS, July 7.—The entire ambulance section of the American Field Staff sent to France by Leland Stanford University last February is cited by General Mangin today in orders to the division.

The citation of the section is made for its having given constantly since its arrival at the front an example of courage and profound devotion, especially at Verdun and at Moronvilliers, in pushing up to the battle lines under bombardments to carry away the wounded.

U. S. TROOPS ENTER FINAL STEPS OF MOBILIZATION

Will Leave Within a Few Days
for Permanent Camp

Unloading of Supplies Almost Finished—Rolling Stock is Being Concentrated—Preparatory to Departure of Troops—Put Soldiers Thru Vigorous Grind.

A French Seaport, July 7.—The American troops today entered on the final steps of the mobilization that shall prepare them to leave within a few days for a permanent training camp somewhere behind the firing line. The unloading of supplies is almost finished and rolling stock is being concentrated here preparatory to the departure of the troops. The days have been used profitably for a double purpose.

Go Thru Vigorous Grind

The more important one was to put the majority of the soldiers thru a vigorous grind of eight hours each day. French officers who had seen service at the front took part in these exercises in order to give the benefit of their experience to the American soldiers. The drills included a daily plunge in the sea, this phase of the sanitation problem being made easy by the proximity of the camp to the ocean. The other advantage taken of the time spent here was to employ smaller groups of the more seasoned troopers to put the final touches on the camp so that it will be in first class shape. The camp in the last few days has been expanded enormously until today it extends for miles and can accommodate a large number. Water has been piped from the town and the system is equipped with every modern device. The drill ground is not only ideal for the purpose, but has the advantage of being at a distance so that the men get a daily hike of about five miles.

For the men arriving at this and similar mobilization bases the American system of living in tents or wooden shacks will be followed, but when they arrive at a permanent camp they will be billeted among the townspeople and live in houses.

Soldiers are Enthusiastic

Few if any of the soldiers know just where they are to be sent but all are enthusiastic over the prospect of getting nearer the scene of action. Their spirits are fine and their health is of the best, with the exception of a few cases of mumps. The men have swamped the officers of their companies with a deluge of letters that must pass thru a censorship.

This morning a military funeral was held for the only man that died since the American troops arrived here. He was Boatwain's Mate J. J. Dunn, who was drowned when he fell overboard from a launch and was carried under before his comrades could reach him.

POSSE KILLS MAN WANTED FOR MURDER

POPULAR BLUFF, Mo., July 7.—Elmer Swain, wanted at Herrin, Ill., on a charge of murder, was shot and killed and his two companions, Wiley Zachary and George Green suspected of being implicated in the murder were wounded in a fight with a posse near here today. Zachary was captured but Green escaped. The three men were trailed to Popular Bluff by a deputy sheriff of Williamson county, Illinois. He found the three men on the outskirts of town and attempted to arrest them. The men escaped tho the deputy fired at them three times without effect.

A posse then was organized and in leaving town this morning soon came upon the men. The three fugitives prepared to fire but members of the posse fired first. Swain ran a few feet and fell dead. Zachary and Green were wounded in the fusillade of bullets.

The men were wanted in connection with the murder of David Daniels, who was beaten to death at Herrin, Ill., last Sunday.

HERE FROM MILLIKIN

M. L. Swartout, director of Millikin Conservatory of Music, Decatur, is spending Sunday in the city, the guest of Supt. C. P. Gillett at the School for the Deaf. After the close of the summer term at Millikin Mr. Swartout will go to Paw Paw, Ill., to join Mrs. Swartout and sons, who have been in Paw Paw at the home of Mrs. Swartout's mother.

TORPEDO BRITISH DESTROYER

LONDON, July 7.—A British torpedo boat destroyer was torpedoed by an enemy submarine yesterday in the North Sea and sunk, says an official statement tonight. Eight men were killed.

ATTACKS INDICTMENTS.

Chicago, July 7.—Indictments charging them and ten others with conspiracy to violate neutrality of the United States were attacked by Albert Wehede in demurrers argued in United States district court here today. Judge K. M. Landis probably will give his decision next week.

GIVE PROOF OF GERMAN PLOTS TO CAUSE REVOLTS

Information Has Bearing On
Sir Roger Casement's Arrest

Papers Seized in Offices of Wolf Von Igel Give Proof—Federal Officers Reticent Regarding Information About Casement.

New York, July 7.—Papers seized in the offices of Wolf Von Igel, secretary of Captain Franz Von Papen, gave the government proof of German plots to foment uprisings in India and Ireland. It was learned tonight. The information it was said, also had an important bearing on the arrest of Sir Roger Casement.

Federal officers were reticent regarding the information regarding Sir Roger Casement. Nothing could be learned of this phase of the conspiracy, except that the evidence was important.

The VonIgel papers brought about the arrest and indictment of Dr. Ernest Sekuna, a Prussian chemist, and two Hindu students at Columbia University, Chandra Chakrabarty and H. L. Gupta, on a charge of setting on foot in this county a military enterprise against a friendly nation.

Confronted with a letter seized in his house in this city bearing the address of the foreign office in Berlin, Chakrabarty stated he had attended a conference with high German officials in the Wilhelmstrasse. Both Hindus admitted they had received large payments of money from German agents. Sekuna and the Hindus are under heavy bail awaiting trial.

The indictment charged the three men with dispatching a Chinese to China to purchase war munitions, which were to be sent secretly to revolutionists in India.

VonIgel's papers revealed, also, it was said that while Captain VonPapen was in Japan in 1915, he paid large sums of money to Gupta to foment trouble in India and that Chakrabarty had been supplied with funds during his visit to Berlin.

After the arrest in this city the seized papers were sent to San Francisco federal authorities for use in prosecuting the majority of the plotters who were said to have had their headquarters on the Pacific coast.

GIVE SOLDIERS' BAND BIG DEMONSTRATION

Play for an Hour on Bloomington Court House Lawn—Everything Quiet in City

Bloomington, Ill., July 7.—A big demonstration was given the Chicago Second Field Artillery band tonight when they gave a concert at their camp on the court house lawn, for an hour on borrowed instruments. With nothing to do the soldiers, who were musically inclined, suggested to some citizens that they had enough men for a band but had no instruments. Director George Manton of the Bloomington band supplied sixteen instruments and the concert was given at 7:30 p. m. Another concert will be given Sunday night.

With 1200 troops here under Colonel Foreman, everything is quiet, except that thousands of people have been drawn up town to see the unusual sight of soldiers camped on the square.

Colonel Foreman stated that he would have taken his troops home tonight but that the mayor and sheriff thought best to keep them here until after the strike conference Monday. It is likely that troops will entrain Monday evening or Tuesday morning. A little excitement was caused near the uptown district last night when a Market street car struck an automobile throwing the driver, Earl Anderson, under the car. Anderson was badly bruised and while waiting for the police ambulance a crowd gathered, some persons made threatening remarks regarding the car crew and the police in order to avoid trouble took the crew to the station. The street car was run into the barn for the night.

TURKEY TO DEPORT GREEKS

LONDON, July 7.—According to a press dispatch received at Amsterdam from Constantinople as forwarded by the Exchange Telegraph, Turkey considers as equivalent to a declaration of war the act of breaking diplomatic relations. The Turkish government, the dispatch says, has decided to deport all Greeks and confiscate their property.

DENIES REPORTED IMPENDING MARRIAGE

LONDON, July 7.—The Daily Sketch quotes Mrs. W. B. Leeds, denying her reported impending marriage to Prince Christopher, youngest brother of the ex-king of Greece.

A recent despatch said that Prince Christopher was going to London to wed a wealthy American woman.

E. ST. LOUIS REFORM PLANS TAKE SHAPE

Banks Will Advance Funds
Necessary to Double
Police Force

DEMAND FEDERAL PROBE

Suggest Judge Landis Be Called To Take Charge Should Probe Be Made

SUGGESTS SEGREGATION

BULLETIN
EAST ST. LOUIS, Ill., July 7.—A street car in which four members of the National Guard were riding was fired upon here late tonight. No one was injured. The shots appeared to come from a vacant lot along a terminal railway tracks near where there is a small negro colony. A tachment of guardsmen scoured the vicinity but found no one.

EAST ST. LOUIS, Ill., July 7.—Plans for the re-organization of the East St. Louis police force which has been demanded by business men as a result of the race rioting last Monday began to take definite form today.

Banks of this city, it is announced, will advance the funds necessary for a doubling of the police force. The banks will make a long-term loan to the city.

Reeb Heads Committee

Conrad Reeb, president of the Southern Illinois National Bank and president of the St. Louis Chamber of Commerce, is chairman of the Citizens' committee of nine that has undertaken the work of reforming the city government.

Other members of the committee are Robert E. Gillespie, president of the Illinois State Bank; E. P. Keschnor, vice-president of the Union Trust & Savings Bank; C. H. Quackenbush, manager of the St. Clair County Gas company; Clarence E. Pope, a lawyer; F. E. Nulsen, president of the Missouri Malleable Iron company; Fred B. Harding, real-estate dealer; Fred Giessing, hardware merchant and Fred Lehman, dealer in musical instruments.

The demand for the federal investigation of the riot and the causes that led up to it became pronounced here today. The suggestion was made that Judge K. M. Landis of Chicago be called here to take charge of the federal grand jury should such an investigation be made. Judge Landis, while holding court in East St. Louis last winter, "lectured" Mayor Mollman and other city officials for not enforcing the Sunday closing law against saloons, and soon after that lecture the mayor ordered the saloons closed on Sundays.

It was recognized today that neither rioting nor the quelling of riots has removed the race antagonism that brought on the recent bloodshed.

Suggests Segregation

Police Commissioner Schmidt today suggested that a step towards the solution of the race problem here would be taken if the large employers of negro labor built model towns outside the city limits for their negro employees. If the negroes were provided homes outside the city limits, he said, they no longer would be a factor in East St. Louis politics and the negroes would have a better living quarters.

PATRIOTIC WOMEN

For two months the Wisconsin legislature debated a resolution providing for printing at the state's expense 50,000 copies of the President's war message; then it voted the resolution down. If the legislature represented Wisconsin, it would be a disgrace. It doesn't. While it debated the women of Wisconsin printed 150,000 copies of Woodrow Wilson's great utterance and sent one to every man who registered for the draft.

GOOD OUT OF EVIL

The negro problem in America is slowly working upward out of the morass, says the Chicago Post. The truth about East St. Louis—the truth the whole truth and nothing but the truth—set forth unflinchingly by the kind of investigation Governor Lowden can give will aid this advance by proving the untruth, the inaccuracy and the non-application of some of the trashy shibboleths behind which wholesale murder now seeks to hide itself.

THE

Three-I baseball league will business today. President offers a sufficient explanation. He says the game doesn't sell as professional sport. A. W. it doesn't pay it isn't much anything. The Three-I this year lost \$25,000 to date; if it should continue to the end of the scheduled season the loss would amount to \$50,000. There is neither profession nor sport in that. Minor leagues are having a rough road to go this year.

PITY THE KNITTER

A doctor in the city has received the following copy of a verse written by a soldier in the trenches in France. It is said to be an actual verse from a man actually in the war upon the receipt of a pair of socks knitted by the fair hands of a well wisher back at home. It was the first knitting that she had ever done, and there is some art in knitting. The socks did not turn out exactly as she had intended, but she sent them along anyway. The verse is as follows:
I have your helmet, I have your kit;
I'm out in the trenches doing my bit.

EVERYBODY HAS ONE

With the motor business still in its infancy there are more than 4,000,000 cars in use in the world, according to a census taken recently by the National Association of Manufacturers—the exact figure is 4,219,246. Developed in America, it is not to be wondered at that America leads in ownership of motor vehicles, but the figures show that in automobiles America is far and away ahead of any other nation. America owns 3,000,000 automobiles and trucks, five-sixths of the world total, a proportion of about one automobile to every thirty people, or one to every six families. The majority of the other sixth are owned in Europe, most of them having been commandeered for war purposes. Compilers of the census admit that there may be many more automobiles than they have registered, but accurate figures are unavailable on account of the censorship.

PUNCTURED PROPHECIES

The prophetic office is becoming a thankless and perilous one in Germany, as in some other countries. The imperial government insists on optimistic interpretation of all augurs and omens, but is notably inefficient in providing verification for prediction.

It was prophesied that the U-boat war would bring Great Britain to her knees by July 1.

It was prophesied that the retreat from the Somme would pave the way for a brilliant and decisive coup by Von Hindenburg.

It has been several times prophesied that the allied offensive was at an end on the west front.

It was prophesied that the United States would not participate in the war beyond the mere landing of money and sale of supplies to the allies.

It was prophesied that Russia would make a separate peace.

It was prophesied that if Russia did not make a separate peace she would disintegrate politically and economically and would never strike another blow on the eastern front.

These are a half dozen prophetic ventures of inspired voices in Berlin made since the beginning of the year and every one of them has failed. How long will it take the German people to discover that they are being led on lies?

THE FRENCH SYSTEM

"In France the government is going right to the people with information about the war, spreading the news thru official bulletins, which are read aloud by the teachers in every school in the republic. The result is a marvelous solidarity has been obtained and the French people know what is going on, discuss things in their community meetings, and come to the support of the cabinet in the matters that are of vital import. I would like to see our public schools used in the same way."

The speaker was Congressman Clyde Kelly of Pittsburgh, who has introduced a bill "to establish direct contact between the people and the national government by the creation of a war information commission." This commission would be composed of cabinet officers, with a civilian chairman to be named by the president. It would be their duty to prepare information concerning all branches of the government and issue weekly bulletins. Citizens of any public school district who had organized a community association to meet in the school would be entitled to this bulletin. Kelly frankly says he got all his ideas on the subject from the French system. During the war of the rebellion citizens of Jacksonville were frequently called to our court house square by the ringing of bells, to hear important telegrams read, telling of great battles, sometimes of disasters. But that was before our time of daily newspapers or of news gathering agencies of the present day. Let us not repeat England's blunder in suppressing news the people should know.

PEACE JUBILEE AT VICKSBURG

Morgan county has a great number of veterans who participated in the siege of Vicksburg. Judge T. B. Orear was one of the commissioners in charge of the building of the memorial to the soldiers of Illinois who endured the hardships of the many battles and skirmishes that occurred during the months of the protracted siege that culminated in that glorious 4th of July and the

unconditional surrender of the rebel forces. Unusual interest will be felt here and possibly many of our honored veterans will be present at the first reunion to be known as the "Peace Jubilee" which will begin at Vicksburg, October 16.

The greatest of interest concerning this "peace jubilee" is evidenced all over the country. The affair is to be a reunion of thousands of veterans of the civil war; a peace-fest of those who wore the blue and those who wore the gray.

The meeting has been conceived and fostered by the National Association of Vicksburg veterans whose association is comprised of union and confederate soldiers.

It has been named a "peace jubilee" because, in a sense, it will glorify the peace born of the amalgamation under one flag of all the states in the union on the ending of the conflict of the battlefield of '61-'65, and of the good will and harmony that has come in the intervening years between all sections of our united country.

It is to be similar to the celebration of the fiftieth anniversary of the battle of Gettysburg in 1913 and it is particularly appropriate that such an event should be staged at Vicksburg, as, during the same days that the battle of Gettysburg was raging on northern soil, the siege of Vicksburg was in progress.

Naturally the battle of Gettysburg was fought by men of the east while the battle of Vicksburg was fought by men of the west and central states. The attendance of the Gettysburg celebration was largely from the east and the attendance of the Vicksburg affair will be proportionately from the central states.

This jubilee will be of special interest inasmuch as it will undoubtedly be the last of its kind that will occur in commemoration of the civil war—for its veterans are all averaging seventy years of age each.

The place where the encampment will be held is in the National Military park, where the battle of Vicksburg was fought and which is now one of the most beautiful parks in the south. It includes the lines of battle of the opposing armies and the fighting ground between, every bit of which is now readily accessible by a superb system of park roadways along which the story of the siege and defense is effectively recorded by state memorials, monuments, markers, and elaborate descriptive tablets.

The United States government has made a generous appropriation and many states have done likewise to finance the enterprise and every effort will be made to make the old soldiers comfortable when they meet.

UNCLE SAMMY.

When Uncle Sammy goes to war, His wicked foes pursuing,
Before he hoists a shining star, He knows just what he's doing.

Uncle Sammy keep it up, Training camps are handy,
Teaches boys to quickly step, Makes them straight and dandy.

When Uncle Sammy sails the seas A submarine attraction,
Old Glory streaming in the breeze, He's ready for quick action.

Uncle Sammy he's a hon', Uncle Sammy's dandy,
Has the boys who love the fun And with guns are handy.

When Uncle Sammy sights a U— And periscope a rising,
His laddies know just what to do, To give it a surprising.

Uncle Sammy knows the tricks, Uncle Sammy's dandy,
And the sub-boats he can fix, Because his boys are handy.

Our Uncle Sammy lands his boys, Just where they are belonging,
And adds to France and Britain's joys, The things for which they're longing.

Uncle Sammy he gets there, While Bill is quaffing shandy,
Treats all other nations square, That's why Sam's so handy.

Our Uncle Sammy is not blind, He knows Columbia's backers;
His secret service men we find Can spot the spies and slackers.

Uncle Sammy he is true, Uncle Sammy's handy,
Loves our Red and White and Blue And our army dandy.

When Uncle Sammy takes a hand His foes get what they're needing;
He'll triumph on the sea and land And heal a world that's bleeding.

Uncle Sammy he's a hon', Uncle Sammy's handy;
Has the ships and has the mon', And a navy dandy.

WESTWARD HO.

In my old auto, worn and rusty, I jog along the highway dusty, to where the hills of Colorado provide a cool and grateful shadow. For birds must have a brief vacation, whatever perils face the nation. Thru many little grains I wander, and often stop, some coin to squander, my auto to refreshments treating—the oil and gas it's fond of eating. And everywhere I hear men spilling, with fervid patriotic feeling. Their optimism's so exalting I have excuse for frequently halting. "Thruout this war's untold revel the Kaiser's held the allies level," I hear the garage sages saying; "In fact, he beat them all at slaying; it surely looked as tho the sinner might in the end come out a winner. But now that we have grabbed our sabres, and borrowed shotguns from the neighbors; the

outlook will be pretty chilly for Hindenburg and Silly Billy. We, as a people, take no pleasure in squandering our blood and treasure, but when we're driven into scrapplin', you bet they'd balked at war and gone a-dishing."

THE KILTIES BAND

The famous "Kilties" Band of Canada, the greatest Scottish band in the world, has toured twenty countries and appeared in the largest coliseums, music halls and theaters, where it was greeted by large and enthusiastic audiences and was pronounced by both press and public one of the world's greatest musical organizations. At Crystal Palace, London, the attendance was over 170,000 in one day. At Madison Square in New York the attendance was over 7,000. In Sydney, Australia, the big Town Hall was sold out solidly for two weeks. The Kilties were prime favorites at the St. Louis World's Fair. This week they will come to Chicago to assist in recruiting British citizens in Illinois.

Their tour of the world covered a period of two years and three months, over 86,000 miles, and took them into Asia, Africa, Europe, Australia and Hawaii.

As a concert band they stand in the front rank and present many special features including bagpipes, all of the Scotch dances and the old time Scotch songs that never fail to please. The band appears in full kilted regiments and makes an unusually striking appearance.

Dislikes Senate Bill.
Representative Barkley of Kentucky, father of the house absolute beverage manufacturing prohibition amendment, said tonight that he disliked the senate bill but declined to forecast what action the house would take on it.

"I am sorry," he said, "that the senate separated whiskey and beer. They have been close friends so long that I don't think they should be parted now."

Other prohibitionist representatives were undecided regarding steps to be taken on the return of the senate bill. The will confer early next week to map out a plan of action.

Road conditions were good for the entire journey, which was in every way enjoyable.

TEAMSTER FOUND DEAD
IN WOODS NEAR FRANKLIN

Henry Shirley, Alone in Walnut Grove, Discovered Twelve Hours After Accident Which Caused His Death—Inquest This Forenoon.

The lifeless body of Henry Shirley was found in a walnut grove on the farm of Sylvanus Scott four miles west of Franklin Saturday night at 11 o'clock, some twelve hours after the accident which caused the teamster's death. Mr. Shirley was hauling logs from the Scott farm to Franklin for shipment, doing the work for a firm in Pekin. When he did not come home at the close of the day, inquiry was made and a search instituted. At the hour mentioned, Mr. Shirley's body was found, his hand still grasping a portion of the lines, with his horse standing a few feet away as if nothing had happened.

A runaway may have been the cause of Mr. Shirley's death, though one can say with certainty the manner of the accident's coming. The body was unmarked, but a member of the party which took it back to Franklin is authority for the statement that the neck was broken. The accident may have taken place as early as 11 o'clock Saturday forenoon.

Coroner Rose was notified of the occurrence and sent word that an inquest will be held early this forenoon at the Shirley home in Franklin.

Mr. Shirley is a man sixty years of age who for the past twenty-five years has made Franklin his home, a hard worker at all times and in every respect a good citizen. His widow and seven children survive. Robert Shirley of Franklin is the son and the daughters are, Mrs. George Whitlock, Mrs. George Amos, Mrs. Stephen Seymour, Mrs. Russell Mansfield and Misses Georgie and Virgie Shirley at home.

A later issue will contain an announcement of Mr. Shirley's funeral.

nor Lowden to direct Attorney General Brandage to take an active part in the collection of evidence. Leaders of the chamber of commerce are not willing to leave this matter wholly in the hands of the local authorities.

Colonel Tripp, assistant adjutant general of Illinois today outlined to newspapermen the report on the riot he would make to Governor Lowden. Colonel Tripp said he would inform the governor that at the beginning of the rioting on Monday the guardsmen here had no ammunition. Colonel Tripp said he also had been informed that two or three members of the Missouri National Guard in uniform had crossed to East St. Louis and aided the rioters. He announced that if he could obtain affidavits substantiating this report he would submit the evidence to Governor Lowden.

The supervisors of St. Clair county today abolished the office of Dr. L. B. Bluit, negro, an assistant county physician. This action was taken because of reports connecting Dr. Bluit with the riots. At the previous meeting the supervisors increased the salary of Dr. Bluit from \$600 to \$1,000 a year.

Governor Lowden today sent his personal check for \$100 to St. Mary's hospital here and a similar check to the Deaconess Hospital with instructions that the money be spent for the care of negroes injured in the riot.

THIRTY-SEVEN DEAD
IN RAID ON LONDON

(Continued from Page 1.)

although several bombs fell close to it.

In one building a number of prominent business men had gathered for a conference. Above their heads was only plate glass. A bomb exploded in the lavatory, but did not even break the glass. Not one of the men was hurt.

Clerks Crowd Windows.
The day's experience showed that persons in solidly constructed buildings are comparatively safe, but the windows of these buildings were crowded today with clerks determined not to miss the spectacle. A bomb fell in the center of one street and the explosion shattered windows several hundred feet on both sides. Numbers of the sky gazers in this section were badly cut by flying glass.

The fate of the humble dwellers in workmen's houses was different. They had no chance for their lives. The sight, now familiar to Londoners, of distracted, sobbing mothers rushing about the ruins of tenements fearing to find, and sometimes finding, the mangled bodies of their children was the most moving incident of the German raid.

A thorough investigation of the results of the battle by staff correspondents of The Associated Press showed that no military, munitions or supply establishments were touched. Apparently none was sought since the Germans undoubtedly knew their location.

WAR NEWS SUMMARIZED

General Brussiloff is pushing his offensive on the Russian front with energy and rapidly extending its scope. He has begun an attack in the region of Pinsk, 150 miles north of Galicia, within which the forward movement had previously been confined and is attacking with success in the region northwest of Stanislaw, southeast of Lemberg.

At Pinsk semi-official advices announce, the German defensive as yielding to the Russian fire. The town itself is in flames.

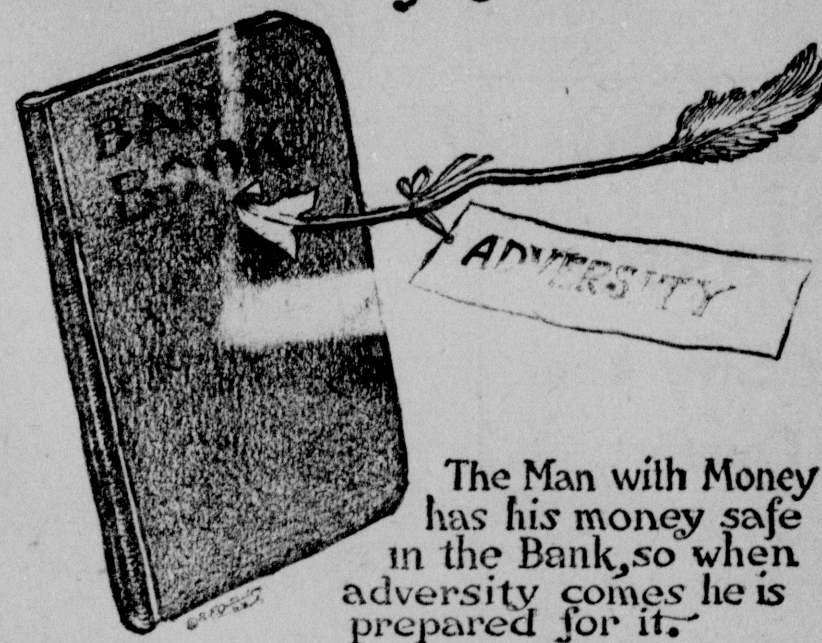

The Gallican campaign is meeting with a vigorous Austro-German defence, and admittedly the Russians have been held up in further attempts to advance in the Konichy region. The sweeping claim of Berlin of a signal victory against the Russians, however, conflicts sharply with the Russian announcements of substantial gains in several sectors. The big guns are roaring all along the line on the Franco-Belgian front. Infantry movements developed in Belgium, where a sharp thrust by the British carried their lines forward slightly in the neighborhood of Wytschaete.

Berlin after laying emphasis on the artillery activity noting its particular severity in some sectors of the British front and characterizing it as spiritous all along the line held by the French from St. Quentin to the western Champagne district, reports two attacks by the French in the last named district, from Mont Carnillet to the Hochberg. The French penetrated the German lines on each occasion, but both times were driven out by counter attacks it is asserted.

London was subjected yesterday to an air raid on perhaps a larger scale than any the Germans had previously attempted. A score or more of airplanes flew over the center of the city, diving down suddenly to a comparatively low altitude dropping their bombs quickly and speeding off southward. Their explosives caused some damage in the heart of London and killed 37 persons and injured 141. These official figures show the casualties to have been not nearly so heavy as in the big raid of June 13, when 151 persons were killed and 430 injured.

On that occasion the Germans lost

only one machine according to the British admission while Berlin claimed all its machines returned safely. This time, however, four of the German raiders were brought down, one by army aviators at the mouth of the Thames and three after an engagement with British naval aviators forty miles out at sea on the return trip.

Furthermore, British airmen at Dunkirk, across the channel, who went out looking for the raiders

OPEN AIR SCHOOL TO HAVE NEW QUARTERS

Weber Property West of Grace Church Leased for This Purpose —Pupils of City Schools Have 867 Gardens—Board of Education Met

The board of education met in adjourned session last evening and transacted several items of business. The financial report showed that the board has paid over \$22,000 on deficit and has at present a deficit of a trifle over \$14,000, having managed the schools for a year and gained about \$8,000 financially. The work of the Red Cross was enthusiastically indorsed and measures will be taken to co-operate with the local society in a substantial manner. The open air school is to be quarantined on the premises just west of Grace M. E. church. School is to open the second week in September. Household gardens to the number of 867 were reported and increased interest in agriculture urged.

The Proceedings
The board met with all members present, President Lippincott in the chair.

The minutes of the last regular meeting were read and approved and all properly approved bills were ordered paid.

A levy for next year was ordered certified to the city council; for educational purposes \$70,000 and for building and repair fund, \$20,000, and president and clerk were instructed to certify the same to the county clerk.

The finance committee was instructed to arrange for funds for the ensuing year.

Member Hopper of the buildings committee reported the custodians at work in the different buildings getting them into shape.

The resignation of Mrs. W. H. P. Huber, nee Miss Margaret English, was read and accepted with regret.

President Lippincott reported that the Lutherans would like to have the use of the David Prince building for the next meeting of their synod, in September. No definite action but the sentiment expressed was favorable. It was referred to the superintendent and buildings and grounds committee with power to act.

It was decided to open school on the second Monday in September.

Superintendent Perrin made a number of valuable suggestions—some new seats for the ungraded rooms; some way to be devised by which the high school boys might have more instruction in agriculture; he reported 867 household gardens in the town among the school pupils; he wished for some means by which the interest in the library might be increased along with a desire to read useful books.

Mr. Perrin recommended a hearty

co-operation with the Red Cross work by the school pupils and especially the domestic science and domestic arts departments; the girls sewing, knitting, and doing all manner of useful work in that direction and also taking first degree lessons in cooking. There was much enthusiasm in that respect and good work may be expected from the girls in the schools this year.

The Weber lot just west of the Grace church has been leased for a term of years. The dwelling house on the premises will be moved and faced toward Morgan street and the present open air part will be moved and attached to it.

FUNERALS

Vieira.

Very impressive were the funeral services for Mrs. Joanna Vieira Saturday afternoon. At 2:30 o'clock there was a brief private service at the home on North Diamond street. At 3 o'clock took place the public rites at the church. The Rev. W. E. Spoons, pastor of Northminster Presbyterian church of which Mrs. Vieira was so long a faithful member, was in charge of both services.

The pastor took for his text St. John 11:11, "Our friend Lazarus sleepeth, but I go, that I may awake him out of sleep." He spoke of the Christian life and many deeds of virtue wrought, a more excellent tribute than any eulogist could ever speak. Death is nothing but a sleep, said the minister. When a man is sleeping, he is not less alive than when awake. Death is but a change, a transformation. When the vale of death is crossed there will be for all a more abundant life.

The music was furnished by Miss Carolyn Smith and Ernest L. Fernandes, both of whom sang appropriate solo numbers. The many beautiful floral gifts were in care of Mrs. Irene Wieke, Mrs. Blanche Cole, Miss Lillie Vasconcellos and Miss Estelle Vasconcellos.

The burial was made in Jacksonville cemetery. The bearers were Joshua Vasconcellos, John G. Goveia, H. H. Vasconcellos, C. C. Oliver, J. W. Baptist and George Goveia.

Watt, Haney Blimling, Douglas Hunt, Wilbur Williams, and the Misses Myrtle Paschall, Margaret Wolfe, Norma Perbix and Ethel Thomason. Mrs. Benjamin Snyder and children were guests of the club.

MANY ENTRANTS IN RED CROSS GOLF TOURNEY

Best Record Made by F. L. Ledford —Four Tied With Score of 76 and Will Finish Play Monday Afternoon

A Red Cross golf tournament during the past week attracted a great deal of interest. There were forty entrants and as each one paid a fee of 25c, the treasury of the Red Cross society is richer to the extent of \$10. Blind bogey was placed at 76 and the low score of the tournament was made by F. L. Ledford, who made the course in 84, and thus won the first prize. Felix Farrell, Jr., had the high score of 142 and so was also a prize winner. Tie scores were made by four players who made a record of 76 with varying handicaps. These players were as follows:

John Strawn, 65-141-76.
Harry Obermeyer, 20-96-76.
F. Butterfield, 21-97-76.
Nelson McMurphy, 35-111-76.

This tie score will be played off Monday afternoon at 2 o'clock. Three prizes were offered for women players but as only two women entered, Mrs. Felix Farrell and Mrs.

Fred Begg, and they did not complete the course, these prizes will be awarded in the contest Monday afternoon.

The complete list of those who entered this tourney included Felix Farrell, Jr., John Strawn, Harry Obermeyer, F. L. Ledford, Roy Hutchison, Fred Hopper, Floyd Butterfield, W. S. FERRERO CASE IN JUSTICE COURT

Man Charged With Assault with Intent to Kill Released—State's Attorney Objects to Court Action and Sweets Out a New Warrant.

Sam Ferrero appeared in Justice Dyer's court Saturday afternoon, charged with assault with intent to kill. The complaint was made by M. H. Richards, father of Clarence Richards who, it is alleged, was cut by Ferrero in a fight which took place in June.

After hearing the evidence of Richards and two young men companions who were with him at the time of the trouble, Justice Dyer dismissed the case. Justice Dyer said that from all the evidence presented Ferrero had acted purely in self defense.

State's Attorney Robinson expressed great surprise at the action taken by Justice Dyer in dismissing the defendant. He declared that the defendant had made no statement in his own behalf and that his attorney had made none for him, and that it therefore was remarkable indeed, for the court to attempt to pass upon the facts. The state's attorney declared that he would immediately swear out a warrant in another court for Ferrero's arrest, and he subsequently did so in Squire Coons' court.

State's Attorney Robinson outlined his position in the matter when he said: "Representing the prosecution, I had three witnesses, Estil Smith, Thomas Mitchell and Oliver Hamm, all of whom testified against Ferrero. No statement was made either by the defendant or his attorney, yet notwithstanding these facts Squire Dyer decided to release Ferrero. Such action, I think, is without precedent and I can see no

reason for a justice to release this man on such a showing. The handling of the whole case by Squire Dyer has been strange, as he placed Ferrero only under a \$50 bond at the first hearing. The charge against him was just as serious as that against George Price, whom Squire Dyer recently placed under a \$1500 bond.

"I do not know what the evidence may later bring out but certainly Ferrero should not be permitted to go free at this time, and I propose to have his case investigated by a grand jury. I indicated to Squire Dyer that I would swear out a warrant in another justice court and this I did, going before Squire Coons."

RED CROSS MEMBERSHIP ROLL HAS REACHED 7276

Cards Have Actually Been Received at the Shop for This Number—Other Reports To Come In—Red Cross Shop Notes.

Seventy-two hundred and seventy-six is the number of Red Cross memberships actually recorded at the Red Cross shop. These figures were made known by Chairman Crabtree last night and make sure that the desired total of 7,500 in this county will be certainly secured. The Lynnville report is not yet in, more members will be recorded in Franklin and Meredosia and altogether there are 250 to 300 names that can be safely counted upon. Altogether it is a wonderful showing for Morgan county, especially when it is remembered that not more than one-fourth of all the counties of the state have completed their membership campaigns, and few indeed, are the counties that have exceeded the state apportionment as was done by Morgan county.

Tho the campaign for members is thus about closed, work at the Red Cross shop shows no cessation. Until further notice from 9 to 12 a. m. and 2 to 5 p. m. each day the work of making surgical dressings will be in progress. Miss Louise Capps, who is directing this work, suggests that women who cannot spend the entire day plan to give a few hours to this work. Many of them can arrange to spend some time at the shop when they are shopping in the business district. Miss Capps and Miss Grace Carter took the training in Chicago which has fitted them to give instruction in the making of dressings. The following have taken a special course of instruction and will now teach others so that the working circle may be enlarged as much as possible. Mrs. John L. Johnson, Mrs. Miller Weir, Mrs. Henry Yates, Misses Carrie Dunlap, Ainslie Moore, Katherine Barr, Edith Sawyer and Verna Wallace.

Children are manifesting more and more interest in the Red Cross work and stories of what they are doing reach the Red Cross shop almost daily. One girl of the Junior Knitting club enriched the Red Cross yesterday with \$5 which her father had paid her for the muffler that she had made with such deft fingers.

Miss Capps mentions that in knitting socks that a measurement not less than 11 inches should be followed. In order to be of greatest benefit it is necessary for the knitting rules to be faithfully observed, and as these rules can readily be obtained at the Red Cross shop women who are to engage in this work are earnestly invited to call for information.

WILL DISPLAY PLANS AT ACADEMY HALL

Monument Association Held Meeting Saturday—Use of Art Room Determined Upon.

The Morgan County Monument Association met yesterday morning with a good attendance. Chairman Major C. E. McDougall presiding.

The committee appointed to secure a room for the use of the persons presenting models and drawings reported that they had the offer of the art room in academy hall free of charge and as it was supplied with a skylight it would be very desirable. The offer was accepted.

The same committee was authorized to secure the services of an experienced packer to unpack and repack the models submitted in the competition.

The president was authorized to make all necessary arrangements for the securing of the names of all Morgan county soldiers and sailors that are to be placed on the monument.

The association is very anxious that the list of names be as complete and accurate as possible and to that end the list will doubtless be published so that corrections and additions may be made.

GOES TO GREAT LAKES TRAINING STATION

Another Jacksonville boy has heard the call of his country, and left yesterday for Des Moines, Iowa, where he will be sent to Chicago to the Great Lakes Naval Training Station. This is Harold Wagoner, son of Dr. Elizabeth Wagoner. Mr. Wagoner graduated this spring from the American School of Osteopathy at Kirksville, Mo., and ranked among those at the head of his class. He was also for a time a student at Whipple Academy, and he is well and favorably known in this city. He enlisted in the hospital department of the navy, which calls for four years of service. Mr. Wagoner will spend six months at the naval training station, and will then spend six months in a shore hospital, and from there he will be sent on a cruise and will spend the remaining three years on a ship. His many friends in the city have congratulated him upon his desire to serve his country in the department for which he is best fitted.

MAVERICKS

A pure, sweet thing is Mr. Hipp.
One of the prudish faction;
He won't look at a battleship
When she is stripped for action.
—Luke McLuke.

Of modish mind is Johnnie Dare,
With his nice, new spring lid;
It pains him sore to have to wear
A glove of undressed kid.
—Wilmington Journal-Republican.

A modest minded man is Hayes,
For he is grieved, in sooth.
If ever he is forced to gaze
Upon a naked truth.
—Memphis Commercial Appeal.

Like none of these is Mr. White
With pleasant smile and laugh,
There is to him a keen delight
In gazing on a handsome calf.

It is about time for Mr. Villa to
be killed again.
According to the despatches Mex-
ico will declare war on Germany in
sixty days. Mexico surely loves
trouble.

Lets see. What other card games
are played with poker checks aside
from poker?

Perhaps if Democratic orators had
not drawn such vivid word pictures
of the horrors of the European war
during the campaign in 1916 the
young men of the country would not
be so backward about enlisting.

Ty Cobb has been demonstrating
the past month why he draws a sal-
ary of \$20,000 a year.

A regiment of hand grenade
throwers made up of professional
baseball players would surely be a
hard proposition to tackle.

Probably Relative of B. V. D.
According to the Bloomington
Bulletin Earl Shorthose of Covel was
visiting in that city recently.

San Francisco barbers have raised
the price of hair cuts to 50 cents.
This is one time when the bald
headed men of that city must be en-
vied.

We have heard a great many Amer-
icans—this is said advisedly—say
that their patriotism was not strong
enough to go to foreign soil to fight.
It is presumed citizens of this caliber
would wait until a burglar got into
their houses before they would at-
tempt to stop him.

The Globe Democrat is having
much to say about the East St. Louis
riot. However, if memory serves us
rightly there were scenes of rioting,
dynamiting and bloodshed during
the street car strike in St. Louis a
dozen or more years ago that were
fully as bad as those which occurred
in East St. Louis. And we recall
at that time that the Globe Demo-
crat and other St. Louis papers gar-
bled the reports of the trouble so
that one was compelled to read the
St. Louis Mirror published by Wil-
liam Marion Reedy before one could
get a true story of the strike.

NOTICE TO
SICK WOMEN

Positive Proof That Lydia
E. Pinkham's Vegetable
Compound Relieves
Suffering.

Bridgeton, N.J.—"I cannot speak too
highly of Lydia E. Pinkham's Vegeta-
ble Compound for inflammation and
other weaknesses. I was very irregular
and would have terrible pains so that I
could hardly take a step. Sometimes I
would be so miserable that I could not
sleep a room. I doctored part of the
time but felt no change. I later took Lydia E. Pink-
ham's Vegetable Compound and soon
felt a change for the better. I took it
until I was in good healthy condition.
I recommend the Pinkham remedies to
all women as I have used them with such
good results."—Mrs. MILFORD T. CUM-
MINGS, 322 Harmony St., Penn's Grove,
N. J.

Such testimony should be accepted by
all women as convincing evidence of
the excellence of Lydia E. Pinkham's
Vegetable Compound as a remedy for
the distressing ills of women such as
displacements, inflammation, ulceration,
backache, painful periods, nervousness
and kindred ailments.

AN EAST ST. LOUIS PAPER
MAKES AN OPEN STATEMENTRegarding Awful Crimes and Friend-
liness—Women and Children Sa-
tanically Disposed ofThe Journal, published at East St.
Louis, in the issue of July 6th makes
the following frank statement of the
riots in that city, and causes lead-
ing to the outbreak:Poor East St. Louis is undergo-
ing, the country over, a course of
criticism, reproving and condemna-
tion. Like all who have previously
sinned, she deserves it, and must
stand it, will do so, and thru the
ordeal will emerge triumphant, re-
formed and more righteous. Fire
is purifying and she has had plenty
of it. It could be thought that she
had had her share in the past for
all salutary purposes, but the last
visitation caps them all. The crime
was so enormous that it could
scarcely be greater.East St. Louisans must admit
their guilt like good people; and
confession, with sincere repentance
and a firm resolve to so live in the
future as to relieve the confidence
and respect of the rest of the land,
is the best way to meet the lament-
able situation, and atone for it. This
must be done with frankness, cour-
age and determination. This will
undoubtedly be done and East St.
Louis will arise from her sackcloth
and ashes a conqueror over her evils
and pernicious elements.

Crimes Repulsive to Majority

The horrors that have been enac-
ted here this week are as repulsive
to, and as strongly condemned by,
at least three-fourths of the people
of East St. Louis, as by any in the
length and breadth of the land. This
is said only to make known that our
people, as a rule, are as good as
those of other cities. But, as in the
cases of Springfield, Cairo, Chicago
and other cities, as history will dis-
close, a combination of conditions
thrust themselves on our city that
upset a fraction of our people, de-
prived them of reason and moral re-
sponsibility, and, influenced by the
vicious that always avail themselves
of such advantages to themselves,
caused them to do things that would
sicken the heart even to write them,
and which must bring a righteous
condemnation from the country. If
our people did not feel the justice
of this verdict they would be abur-
durate of heart, and little less guilty
of the crime imposed upon our
city than the real perpetrators.The criminal calamity has been
long in process of evolution, and the
Journal has long felt that the ele-
ments that entered into this process
were bound, sooner or later, to
culminate in violence, sorrow and
shame.

Politics Root of Evil

Politics is the root of the evil
that has produced the awful orgy
that has now bowed our city in ig-
nominy and abasement. Politicians
have used, for the past fifteen years,
the poor negroes as catspaws and
dupes to gain and keep public posi-
tion, and enjoy public spoils. The
Republican machine encouraged the
migration of negroes here for vot-
ing purposes, and which several
years ago reached such proportions
as to more than give them the ma-
jority vote and control. The Demo-
crats protested against this, and the
acrimony caused more or less prej-
udice to accrue against the negro. But
the negroes getting on the registra-
tion books, the Democrats sought
to corral as many of their votes as
possible, especially in municipal el-
ections. Thus they had to buy neg-
ro leaders, as well as did the Repub-
licans.The negroes were petted, flattered
and made so much of by the Re-
publican and Democratic politicians
that very many of them became ar-
rogant, pompous and beyond their
planes. Their leaders lived upon
the money and other spoils gained
from the politicians. They had a
big political pull among white polit-
ical leaders, and those holding polit-
ical office, both in the city and coun-
ty. They revelled in dens of vice
and iniquity, and could "get by"
with almost anything they desired
to do, or did do. They were the
deep damnation of their own race,
and were looked upon with disdain
by all decent whites. This situation
has existed for several years, and
has caused much enmity to be en-
gendered.

Migration Greater Than Need

This reprehensible situation was
magnified and accentuated a year or
so ago by a vastly larger influx of
negroes into the city. It was said
that the new migration was caused
by the demand for that class of help
by several of our industries. But
the negro migration was many times
greater than the employment need.
For months they came into East St.
Louis by the car loads. Home own-
ers claimed that inducements were
held out in the South, thru the negro
leaders here, that there was employ-
ment plentiful in East St. Louis, for
all the negroes that would come,
and at most remunerative wages.
Anyway, the influx was so great that
East St. Louis seemed, if the move-
ment kept up, to be destined to be-
come a negro city. And the worst
of it was, that there was only em-
ployment for a small portion that
came. The rest were thrown upon
their own resources to exist, and
much crime ensued.A city can absorb and assimilate
a negro population to a reasonable
and wise per centage of the popu-
lation without arousing antagonism,
but beyond this, and to a degree that
is likely to negroify a place, will
produce disquiet and hostility, and
even worse. If the immigration is
left to its natural action, and not
artificially accelerated, it will gen-
erally come in normal numbers, with
good will all around, and acceptab-
le to the people of the places thus aug-
mented. The mistake with East St.
Louis is that the immigration was
not natural, but very artificial.Militia Was Brought Out
And then, when this negro influxwas at its greatest, a labor strike
was in progress, and the industrial
workers regarded that these negroes
were imported to take the places of
strikers, whether the charge was
true or not. This caused the ill will
of these laborers towards the incom-
ing negroes. Thus sentiment against
the poor, ignorant and duped neg-
roes was accumulating. Conditions
became such that the militia had to
be brought here. The negroes who
had been furnished arms by their
leaders were disarmed, and a false
peace was pronounced, that was only
a smoldering volcano.The negro leaders had enough in-
fluence with the authorities to get
them to return to the negroes all
the arms taken from them during
the presence of the militia. The
militia was brought here to effect
this disarmament, and soon after
the militia departed the authorities
restored all this good and effective-
ness, by adding it, in restoring
these arms to those who had no
right to carry them. This was a most
unwise and unjustifiable action, and
assisted the awful affair that was to
be enacted.Besides, the negro leaders gather-
ed many of their brethren togeth-
er, armed and drilled them, and
preached to them that they should
hold their own against the whites. At
so, frequently negroes "held up"
and assaulted and robbed white men
in lone places, or in the suburbs.
This further piled up antagonism
against the negroes.It is reliably asserted, that it was
under the spurring of these negro
leaders that a crowd of armed neg-
roes went out, on last Sunday night,
to assault themselves, and whom
Sergeant Soppedge, Detective Wad-
ley and Patrolman Hobbs, with
Chauffeur Massarang, were sum-
moned to come forth and quiet. The
negro bandits, in response to Cop-
pedge's gentlemanly address, brutal-
ly shot and killed him, and seriously
wounded the others, one of whom
has since died. This was as coward-
ly and fiendish a murder, and as
desperately a trampling on the law as
was ever perpetrated in this most
lawless community. This high-band-
ed and blood-curdling murder of
police officers raised the antagonistic
feelings of a large portion of our
people to white heat, against the
negroes, while it was unscathingly
condemned by all.

Police Were Enraged

When Monday morning broke, and
the police murder became known,
there could be no doubt that a most
desperate day was before East St.
Louis. Mayor Mollman knew this,
and sent in a call for militia and
soon some arrived. The police were
enraged at the fate of their brother
officers, and felt little or nothing to-
wards protecting negroes, who be-
gan to be attacked by the rioters.
As the day wore on, the assaults
on poor, innocent, unoffending and
hard-working negroes in all sections
of the city became general. The po-
lice did nothing to save these unfor-
tunate and pitiable negroes, and the
militia did about as little. In fact
the militia, by their inefficient ac-
tion, and fraternization with the
rioters, encouraged the rioters on in
their mad and ruthless murders and
assassinations. Negroes, male and fe-
male, and children, were beaten,
pounded and stoned to almost unrec-
ognizable masses, then perforated
with bullets, thrown into the streets,
or into the creek, or hung up to
poles, and nobody allowed to re-
trieve the bodies.The awful deeds and sights were
too heinous, cruel and heartrend-
ing to dwell upon by describing
them. They could not be more re-
volting, shocking and paralyzing.

No Effort to Save Negroes

Broadway, from Main street to
Fourth street, was a storm center of
this saturnalia of fiendishness. Po-
licemen and militia in few numbers
were on the scene all the time. Not
a single sincere or substantial effort
to save the negroes, or arrest the
highway murders was made during
all the hours that unoffending neg-
roes were being shot and pounded
and stamped to death. At any time
that the militiamen would have com-
manded a cessation of the murders,
and refusing, a volley of bullets
had been fired at these murdering
rioters, peace would have been re-
stored here. In fact, we believe a
volley of shots above their heads
would have effected this result. And
the same at all other points. Even
the report of the law's triumph on
Broadway would have had a power-
fully depressing effect on riot-mur-
der thruout the whole city. This is
verified by the fact that when, about
7 o'clock this evening, a new militia
officer came to this Broadway riot
point, and vigorously acted and com-
manded, the rioters subsided and he
marched several hundred of them to
the police quarters as prisoners.
Had this been done earlier in the
day, the terrible reign of murder
and holocaust of that night would
not now be standing recorded
against East St. Louis.Mayor Mollman did the best he
could to get the State authorities
to take drastic action. He was ab-
solutely powerless in the premises.
His police force would not actively
do anything substantial, or effective,
to protect the poor negroes, because
some murderous ones of their race
had killed some of their comrade
officers. The Mayor was frustrated
in his endeavors to get the State au-
thorities to act until he called the
militia commander in about 6 p.
m., and actually forced the respon-
sibility upon him. But this was too
late to avert the reign of terror,
murder and incendiarism that held
such frightful sway thruout most of
the night.

Forced Into Burning Abodes

During that awful night crimes
were committed and fiendishness en-
acted, that will vie with any in all
history. Negroes were shot on sight;
hunted, found and shot; they were
assaulted and maimed and crushed
by any and all weapons within
reach. Women and children were
likewise inhumanly and satanically
disposed of. Houses all over the
city, occupied by negroes, were fired,
and as the affrighted and demor-
alized inmates attempting to flee fromthe burning abodes, they were shot
and forced back into the burning
caldrion, to be converted into char-
red cadavers. The terrors of that
night to negroes and many whites
are as indelible as they were
disgraceful and humiliating to East
St. Louis, and undermining to free
republican institutions.But the wrong has been enacted
and cannot be recalled. It can only
be atoned for, and that by repudi-
ating it, and making all the amends
possible. A radical change in pub-
lic life, the elimination of vicious
politics, the overthrow of vice, crime
and greed, their haunts and dens,
and the ceasing of exploiting the
poor, ignorant and easily duped
negroes as corrupt pawns in the
damnable indecent political games
that have held East St. Louis so long
in bondage, together with purer pub-
lic service, official integrity, and a
sincere and loyal devotion to pub-
lic interests, will be necessary now
to redeem our city from the repute
she has had fastened upon her by
a combination of conditions and cir-
cumstances, and evil leaders, that
would have probably as successfully
tempted and engulfed any other city
in the land.But East St. Louis has suffered
so much, and lived and prospered
that we have the most unbounded
faith in her surviving this staggering
stroke, and triumphantly arising,
fresh-like, from her misfortunes
and ashes, to again command the
admiration and confidence of the
country, purified and staunchly just.Order all kinds of ice cream

Mr. and Mrs. Jerry Cox have re-
turned from a trip to Peoria and
were accompanied home by their
daughter, Mrs. Hill, husband and son
of Iowa. While absent they visited
Starved Rock and the factory where
army tractors are made. Mr. Cox
was much impressed by these pow-
erful machines which take a load of
fifty tons right thru mud and water
four feet deep.

FATHER J. M. CLEARY

Father Cleary is one of the best
beloved priests of his
denomination. His is a charming
personality. There is nothing spec-
tacular about his or-
atory or his sub-
jects. His lecture
upon "American
Citizenship" is a
very conservative
but is a master-
piece. He has done
yeoman service for
the temperance

made for himself
not only a notable
place on the plat-

CONCORD
Fifteen families in the vicinity of
Duncan Springs school decided to
have a Fourth of July of their own,
so they assembled on the lawn of
Edward Stanley and had supper, in-
cluding ice cream, and all the good-
ies needed for a first class feast.
Good music was one of the attrac-
tions, and it is safe to say the cele-
bration was not only safe and
sane, but satisfactory, as well. Such
celebrations are a good thing for
every community once in a while at
least. Old friendships can be re-
newed and strengthened and the
young folks given a chance to show
what they can do towards enter-
taining their seniors, and the older
people enjoy the social part as well
as the younger ones.

AJAX TIRES

GUARANTEED IN WRITING 5000 MILES

97% Owners' Choice

Ajax Tires are Singled Out by Motorists Who Know

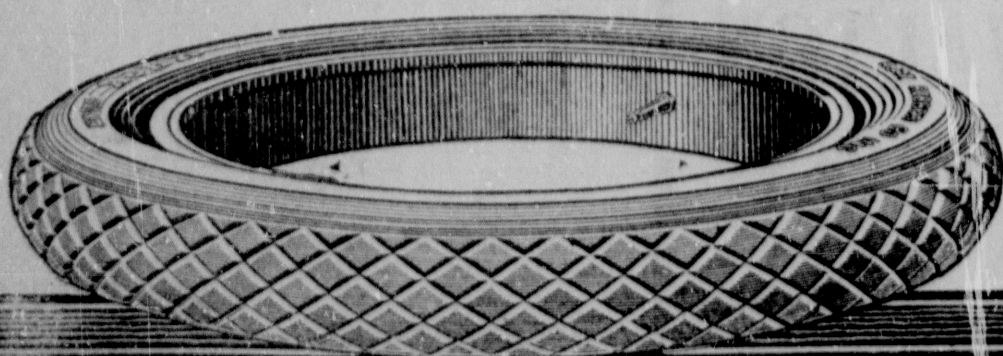

OVER 97 per cent of all Ajax Tires in use are CHOSEN by their owners. They are singled out for reasons of quality, to take the place of the original tires supplied by the automobile manufacturer. This record is unique in tire selling. A big fact—when you think it over.

And Ajax Tires are bought on their road showing. An Ajax buyer starts with

one tire. Finally, as Ajax proves its superior worth, he is all Ajax and all Ajax he stays.

Ajax Tires positively mean highest quality for the price. And all Ajax Tires carry the Ajax Guarantee in Writing 5000 Miles. This 5000 is the *least* you may expect. With proper care they should add many miles to this. We sell and feature Ajax Tires because we know their worth.

CHIEF CAUPOLICAN

The world's greatest Indian orator and entertainer, is the most notable representative of the Indian race upon the platform. A native of Chili, and a chief of the Aurocanos, he is an orator, singer, entertainer and man of affairs. Educated in France and England, he is an accomplished linguist speaking fluently several languages.

His story of his own people and their long struggle against the aggressions of the Spaniards holds his audience in breathless attention. Pride of race is evident in every gesture and his stories of the triumphs of his people are told in the manner of an ancient bard celebrating a victory. Thrilling as is his story, the real climax comes when he breaks into song. He has a splendid high baritone voice and sings the heart songs of his people with marvelous feeling and expression.

He gives a most unusual and thoroughly attractive program and for several years has delighted audiences at great chautauques.
